NOTICE OF A DRAFT AIR CONSTRUCTION PERMIT

GEORGIA-PACIFIC CHEMICALS LLC - RUSSELLVILLE SC PLANT
1028 GEORGIA-PACIFIC DRIVE
RUSSELLVILLE, SOUTH CAROLINA
(BERKELEY COUNTY / REGION 7 CHARLESTON EQC OFFICE)
AIR PERMIT NO. 0420-0013-CH

Georgia-Pacific Chemicals LLC (GP) has applied to the SC DHEC for a construction permit to operate a boiler at its existing Russellville SC Plant. A draft permit and Statement of Basis have been written by the BAQ outlining this proposal and applicable regulations. This permit will enable the facility to operate in compliance with state and federal air quality regulations. The draft permit has not yet been approved and is open to comment from the public, affected states, and the United States Environmental Protection Agency (EPA).

GP wants to convert a previously installed temporary boiler to a permanent boiler. The boiler will continue to burn low sulfur No. 2 fuel oil. If this permit is approved, the facility will take a federally-enforceable limit of burning No. 2 Fuel oil with a sulfur content of less than 0.0015% to stay below Prevention of Significant Deterioration (PSD) threshold. This permit will be incorporated into the facility's Title V Operating Permit with no additional public comment period, provided all public participation and EPA requirements were met with notice of the construction permit action. All emissions limitations and conditions in the draft construction permit have been written in accordance with the SC Title V Operating Permit Program.

Interested persons may review the materials drafted and maintained by DHEC for this facility and submit written comments on the draft permit by October 28, 2008, to Hetal Patel at the above DHEC address. All comments received by October 28, 2008, will be considered when making a decision to approve, disapprove, or modify the draft permit. Where there is a significant amount of public interest, DHEC may hold a public hearing to receive additional comments.
